

GBL DrM

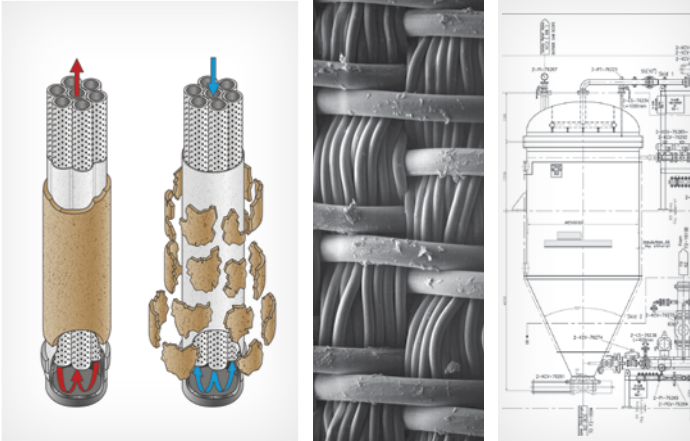

FILTRATION TESTWORK, CONSULTING AND EQUIPMENT

DrM FUNDABAC® FILTERS

Specialising in Filtration Testwork and Consulting
 Innovative solutions provided on-site, in our or your laboratory,
 verified with customised high-tech test equipment.

SOLID/LIQUID SEPARATION

FILTRATION EXPERTISE

We understand filtration

- Fundamental understanding of SLS
- Experiences across all industries
- Technology transfer and first-offs
- Collaborating with global technology leaders & Universities

CONSULTING

FROM R&D TO TROUBLESHOOTING

Solution focussed

- Hands-on and high level consultant
- Academic trained, on-site educated
- Training, plant audits and studies
- Involved in most critical minerals projects (Li, RE, Ni...)

FILTRATION TESTWORK

CAKE & POLISHING FILTRATION

Customised testwork

- Bench scale & pilot Scale
- Vacuum belt, drum, disc and pan
- Candle and leaf type filters
- On-site or in our lab
- Selection beyond vendor testing

Polishing and Pressure Candle Filter Solutions

Cutting-edge technology delivered by our Swiss principal DrM,
validated by > 25 years trusted local filtration expertise.

FUNDABAC®

DrM FUNDABAC® FILTER

Versatile candle filter family

- Cake filtration, washing and drying
- Fully enclosed with no moving parts
- Highly corrosive & hot slurries > 100C°
- Well proven in > 3500 plants
- Li, TiO₂, RE, Ni, PLS, brine ...

CONTIBAC®

DrM CONTIBAC® SM GUARD FILTER

Candle and cartridge filters

- Thickening and polishing
- 0.3 - 10 µm sintered SS cartridges
- Other conventional cartridges
- PLS polishing, impurity removal, product recovery and guard filters

PILOT TESTWORK

DrM FUNDABAC® PILOT PLANTS

Study of expanding possibilities

- Mono or multi candle pilot filters
- 0.16 - 2.3 m² filter area
- Manual and fully automatic (PLC)
- Hepta, RX, steam jacketed
- 316L SS, PVDF, PP ...

STRENGTH & EXPERIENCE

INTERNATIONAL CONNECTIONS

GBL DrM provides **innovative approaches** and solves process & plant problems creatively through our own extensive experience and by working with global filtration technology leaders and Universities.

EXPERTISE & EQUIPMENT

You get **trusted advice** and **proven equipment** best suited for your needs through our solid understanding of filtration and separation processes combined with extensive industrial experience in consulting, testwork, development, equipment selection, scale up, sizing, design, commissioning, optimisation and improvements.

FILTRATION TESTWORK & CONSULTING

Our **high-end consulting** and **customised testwork** helps you select solutions and integrate cost-effective technologies into your process. We have assisted most critical minerals projects, first-tier mining companies, new projects and leading engineering houses.
